

HE WHO HAS EARS

T O H E A R !

We are spiraling toward a collapse of the world monetary system. Here is the plan! In the existing financial crisis, a domino effect has sent many businesses small and large floundering or going under. A super, super World Bank, IMF (International Monetary Fund) has already been established with unlimited capital and trillions of dollars to bring about a takeover and push through a One World Government. Currently, the United States' financial problems have started a chain reaction in a number of nations causing financial woes for them as well due to the dollar commonly recognized as the accepted world currency for international trade.

The IMF will offer all that is needed at a certain percentage attracting nations experiencing financial hardship. Many US businesses as well as savings and loans, commonly referred to as S&L's, will most likely buy into this plan lock, stock and barrel. Then at a set time the International Bankers will recall mortgages; when they can't be met "the banking systems will snap shut" and then this "Super cartel" will virtually control the wealth of the world.

In a 1944 meeting in Bretton Woods, New Hampshire, the world's most prominent socialists established the International Monetary Fund (IMF) and the World Bank as mechanisms for eliminating gold from world finance; a hidden agenda behind the IMF World Bank is revealed as the building of world socialism with our own Federal Reserve helping its establishment.

THE IDEA

It is an International Monetary Fund to establish global economic activity as leaders of last resort for financial institutions. Today we are facing jittery financial markets and will need a push

to create and regulate new international liquidity.

As Americans, we have a central bank, a private corporation that claims to provide a service to the people of the United States by furnishing the money that is used in our own banking system. Also, our United States monetary system is in the hands of a few very wealthy and powerful individuals who control virtually every aspect of our economy. This means the power of our central bank, the Federal Reserve, exceeds and supersedes that of the President and Congress. It does not publish an annual report, and its meetings are not reported to the press until six months after a decision, AND THEY PAY NO TAXES. Maybe this is why President George Bush Jr., who is a part of Skull and Bones, a group used to bring us to our demise, waited until just before his departure from Office for these current financial crises to take place. Don't blame it all on him though because members of two secret organizations, Skull and Bones and CFR are actively working to blindly seduce our nation into partnering with them in a One World Government

There is no doubt that America is truly a major target in pushing for a One World Government. The New World Order can't become a functional reality as long as the United States is the leading financial nation of the world. Americans need to wake up and fight against destructive world politics and regain control over the path our government and nation are taking. To do this we need to drive to maintain our leadership role in military and economic affairs in order to change this downward course. World planners from the United Nations' Group Seven have taken the directive to weaken our great nation both militarily and economically. Members of CFR and Skull and Bones have for years been able to capture leading rolls in the United States' government and the media, making them enemies of the truth.

FINANCIAL CRISIS

The current global financial crisis that started in the West has quickly extended to other

countries of the world. Stock markets tumbled to new lows. Currencies in other developing countries are being affected.

Stock market drops to 8% and as high as 11% in Japan, Korea, Singapore and Hong Kong and 5% in England and Germany indicate we are entering a world recession; There has been a major decline in retail sales and motor vehicles. J.P. Morgan economists have estimated the United States gross domestic product fell in the third quarter and will fall again in the fourth quarter. It also states that European countries will have an even steeper GDP fall. Some prominent people are no longer describing the economic situation as the worst since the Great Depression, but as being worse than we could even imagine.

Our own government may be large and powerful, but the markets for assets, stocks, bonds, real estate, real assets, and money market instruments are far, far larger than even the largest and most powerful government can control. And they are certainly far larger than any typical government. George Soros, who has supported Obama, is famous for having bet against the British pound and won in 1992. His track record in speculation has been excellent.

When a government defends an overvalued currency by buying its own currency with other currencies it holds in reserve, it is trying to hold up the price. Many governments are now doing this and getting the aid of the bright boys at the IMF who also like lost causes. This is like the Hunts trying to hold up a high silver price when the market value is much less. The government can buy and buy and buy, but it will lose if the currency is overvalued for fundamental reasons and the equilibrium price is lower. Its buying only serves to provide a market for the traders who wish to sell out. George Soros revealed this in 1992 when he said: "Our total position by Black Wednesday had to be worth almost \$10 billion. We planned to sell more than that. In fact, when Norman Lamont said just before the devaluation that he would borrow nearly \$15 billion to defend sterling, we were amused because that was about how much we wanted to sell."

In the same way, the U.S. government cannot succeed in holding up real estate prices that have fallen. If it borrows \$700 billion and buys and loans or invests in banks who then hold

these loans, it will lose money as surely as the Hunts lost their fortune, and as surely as the British government lost to George Soros in trying to defend the pound at an unrealistically high value. Buying overvalued assets is a sure way to lose money, for you, for me and for a government! A government has no special power to hold up the prices (in real terms) and prevent them from falling, and no special power to cause low prices to rise to a higher level (in real terms). Oh, I suppose it has the power to print money and drive its currency value down to zero (and other prices up), but in the process it will destroy the government and burn up a lot of its citizens wealth.

The Federal Reserve and the U.S. Treasury, with the aid and comfort of the Congress, are all embarked on a massive exercise in futility that is only weakening them and us. If they push their policies of supporting the asset prices of failed assets and assets with deflated prices far enough, they will bankrupt themselves and destroy huge amounts of American wealth in the process.

At present the U.S. government is not near bankruptcy, however, in all three departments, spending, borrowing and running down its assets, it is doing an excellent job of heading for that target. Take spending; the annual growth rate of government spending has exceeded the growth rate of production by one-third over the last 100 years or so. This high growth rate of federal government spending has driven spending as a percentage of total U.S. production from 2 percent to 21 percent. There is no sign of any slowing in the government's rate of spending. As Social Security and Medicare arrive for the baby boomer generation, government spending will accelerate.

There has been a slow-motion slide toward bankruptcy as the cash flows coming in fail to match the cash flows going out. Our country's spending keeps exceeding the income, which is not rising fast enough to prevent more and more borrowing in order to stay afloat. At present, Uncle Sam is taking in \$2,700 billion and spending \$3,100 billion. The difference is borrowed, which makes for another \$400 billion of debt.

As of November 17, 2008 our national debt is \$10, 592, 767, 511, 277.55. Our debt has continued to increase \$3.81 billion per day since September 28, 2007. It consumes much more

than 100% of revenue collected from income tax. It's apparent we as a nation are alone printing up currency that has no value. The major problem is that our current debt will fall by nationalizing our banks. We are already seeing that our banks are in trouble. At a given time, the dollar will be replaced by another currency for the whole world. It's very apparent that there is a push for a ONE WORLD GOVERNMENT AND ONE WORLD MONETARY SYSTEM

PERSEVERE & TRUST

We must grow and be strong in our faith so we can stand strong in the trying times that are ahead. The worst will come down the road when the world will be controlled by a One World Government, and more specifically, especially when there will no longer be printed currencies. This will be the time that "the mark of the beast" will be instituted leading the world into demise.

Revelation 13: 9-18 warns us, "Those who have ears, let them hear! If anyone is meant for captivity into captivity he will go! If anyone is to be killed with the sword (war) with the sword he or she is to be killed!

This is when G-d's holy people must persevere and trust! A beast will be seen coming up out of the earth. It will be on earth to deceive us and will exercise all the authority of the first beast in its presence; and it makes the earth and its inhabitants worship the first beast, the one whose fatal wound had been healed. It performs great miracles, even causing fire to come down from heaven onto the earth as people watch. It will deceive the people living on earth by the miracle it is allowed to perform in the presence of the beast, and it tells them to make an image honoring the beast that was struck by the sword (war) but came alive again. It was allowed to put breath into the image of the beast, so that the image could even speak; and it was allowed to cause anyone who would not worship the image of the beast to be put to death.

Also it forces everyone great and small, rich and poor, free and slave to receive a mark on his or her right hand or on the forehead, preventing anyone from buying or selling unless he or she has the mark, that is, the name of the beast or the number of its name. This is where wisdom is needed; those who understand should count

the number of the beast, for it is the number of a person and its number is '666'".

The warning continues in Revelation 14:9, "If anyone worships the beast and its image and receives the mark on his or her forehead or on his or her hand, he or she will indeed drink the wine of G-d's fury poured undiluted into the cup of his rage. He or she will be tormented by fire and sulfur before the holy angels and before the Lamb, and the smoke from their tormenting goes up forever and ever. They have no rest, day nor night, those who worship the beast and its image and those who receive the mark of its name."

BABYLON - THE FOURTH HARLOT

The fourth and final harlot will be the one to lead the world to demise. Revelation 17:6 declares, "I saw the woman drunk from the blood of G-d's people who testify about Yeshua. (Yochanon (John) the writer states) On seeing her, I was altogether astounded. Then the angel said to me, 'Why are you astounded? I will tell you the hidden meaning of the woman and of the beast with seven heads (seven top economic nations) and ten horns (regions that will replace nations - the first region is already being set up "NAFTA" which includes Mexico, USA and Canada.) The beast you saw once was, now is not, and will come up from the Abyss; but it is on its way to destruction. The people living on earth whose names have not been written in the Book of Life since the founding of the world will be astounded to see the beast that once was, now is not, but is to appear. This calls for a mind with wisdom: the seven heads and seven hills (nations) on which the woman is sitting, also they are seven kings; five will have fallen, one will still be living and the other is yet to come; and when he does come, he must remain only a little while. The beast which once was and now is not is an eighth king; it comes from the seven and is on its way to destruction. The ten horns you saw are ten kings who have not yet begun to rule, but they receive power as kings for one hour, along with the beast. They have one mind and they hand over their power and authority to the beast. They will go to war against the Lamb (Yeshua), but the Lamb will defeat them, because he is L-rd of lords and King of kings, and those who are called, chosen and faithful will overcome along with him'.

Then he said to me, 'The waters that you saw, where the harlot is sitting, are peoples, crowds, nations and languages. As for the ten horns that you saw and the beast, they will hate the harlot, bring her to ruin, leave her naked, eat her flesh and consume her with fire. For HaShem put it in their purpose, that is, to be of one mind and give their kingdom to the beast until HaShem's words have accomplished their intent. And the woman you saw is the great city that rules over the kings of the earth.'"

LOOKING BEYOND

Revelations chapter 20: 1-3 states, "Then I saw an angel coming down from heaven, who had the key to the Abyss and a great chain in his hand. He seized the dragon, that ancient serpent, who is the Devil and HaSatan (the Adversary), and chained him up for a thousand years. He threw him into the Abyss, locked it and sealed it over him, so that he could not deceive the nations any more until the thousand years were over. After that, he has to be set free for a little while."

In II Peter 3:8-10 it states, "Moreover, dear friends, do not ignore this: with HaShem, one day is like a thousand years and a thousand years like one day. HaShem is not slow in keeping his promise, as some people think of slowness; on the contrary, He is patient with you; for it is not His purpose that anyone should be destroyed, but that everyone should turn from his sins. However, the Day of HaShem will come like a thief. On that day the heavens will disappear with a roar, the elements will melt and disintegrate, and the earth and everything in it will be burned up".

We are nearing the end of six thousand years on the Jewish calendar, which to HaShem could be equivalent to six days. The last thousand years would be the period referred to as the millennium period, but also the seventh day, which is the Sabbath. This will be a time of rest with HaShem for those who have made t'shuvah by returning to the G-d of Abraham, Isaac and Jacob, having received by faith His provision for each of us, the eternal blood atonement of Messiah Yeshua. HaSatan will be chained up for this 1000- year period, unable to cause any turmoil during this season of peace. After the thousand years, HaSatan will be let loose, only at that time

to his destruction, along with those who followed him. Then those who have been faithful to HaShem, having embraced by faith His atonement in Messiah Yeshua, will be given a new heaven and a new earth, only to be forevermore with HaShem.
